| UBB            | 500645012450  |
| UNSPSC         | 31161727      |
| EAN            | 8717077050884 |
| PKG. of 1000   | Full Box Only |

### Technical Parameters

|                   |                                             |
|-------------------|---------------------------------------------|
| Diameter          | M2.5                                        |
| Class             | 8                                           |
| Driving features  | Hexagon                                     |
| Material          | Steel                                       |
| Thread direction  | Right                                       |
| Surface treatment | Zinc plated with thick Cr(III+) passivation |
| Thread            | Metric thread                               |

### Standards

|     |         |
|-----|---------|
| NEN | 1560    |
| DIN | 934     |
| NF  | E25-401 |

### Technical Specification

|     |      |
|-----|------|
| d-D | M2.5 |
| m   | 2    |
| P   | 0.45 |
| s   | 5    |
