| Info              | Oversized hot dip galvanized bolts and screws are manufactured with standard thread tolerance class 6g before coating. After galvanizing they will therefore NOT fit into standard nuts or threaded holes with thread tolerance class 6H. Suitable nuts have been tapped with thread |           |            |

tolerance class 6AZ (oversized).oversized
