

Spring-type straight pin (spiral pin) coiled, standard duty ISO 8750 Spring steel 420-545 HV30 8X20MM

Article number	39140.080.020
Brand	-
UBB	950359060569
UNSPSC	31163201
EAN	8715492808776
PKG. of 100	Full Box Only

Technical Parameters

Diameter8 mmISO8750Length20 mmDIN7343MaterialSpring steelMaterial technical420-545 HV30InfoWarning: electroplating of these products may cause hydrogen embrittlement.Dimensionsabove table are before mounting.V = minimum shear strength, double, in kN.The recommended tolerance class for the accommodating hole diameter d (nominal) isH12.Special features of coiled spring- type straight pins (spiral pins):These positioning of two or more parts and may also be used as shafts and hinge-,

Standards

stop- or carrierpins, and are easily disassembled.Thanks to their spiral shaped cross section (approximately 2.1/4 coils) these pins are very flexible and suitable for repeated use with dynamic loads. Equal stress distribution throughout their cross section against the hole wall produces a good press fit, which can absorb shear forces unaffected by the direction.The pins are chamfered at both ends, so they can easily be inserted and installed automatically.

Technical Specification

a≈	2
d1 (max.)	8.63
d1 (min.)	8.3
d2 (max.)	7.8
D (mm)	8
L (mm)	20
