

## Hexagon nut with serrated flange DIN ≈6923 Stainless steel A2 M3

Article No.	51119.030.001
Brand	-
UBB	500571679058
UNSPSC	31161727
EAN	8715494103701
PKG. of 500	Full Box Only

### Technical Parameters

### Standards

ISO	≈4161
DIN	≈6923
NF	≈E25-406

Info	<p>Specific features of hexagon nuts with serrated flange: The flange enables built up forces under the nut to be spread over a larger area, consequently resulting in lower surface pressure. Large (oversized) holes and/or tooling holes can be covered by the flange. Washers are not necessary.</p>
------	--

The serrated flange provides an excellent self-locking effect.
