

**Prevailing torque type
hexagon nut with non-
metallic insert DIN 985
Stainless steel A2 M16**

Article number	51730.160.001
Brand	-
UBB	950355228467
UNSPSC	31161727
EAN	8715492307651
PKG. of 20	Full Box Only

Technical Parameters

Diameter	M16
Driving features	Hexagon
Material	Stainless steel
Material technical	A2
Thread direction	Right
Thread	Metric thread
Info	Stainless steel prevailing torque type hexagon nuts may cause seizing of the mating threads resulting in fracture.It is recommended to use stainless steel prevailing torque type hexagon nuts treated with an agent to reduce this risk or use an anti-seize- or lubricating compound.
